

Habilis Files | Diamond Needle Files

Habilis Files

• CHROME ALLOY STEEL • INTEGRAL HANDLE

D-M-E Habilis Files are made from chrome alloy steel. They are just right for those in-between jobs when a full-size file is too large. The file and integral handle are balanced to give the mold or die maker full control for efficient cutting.

A complete set, stored in a sturdy vinyl pouch, includes one each of these five popular file shapes: rectangular, half-round, triangular, square and round. These handy Habilis Files are available in coarse (00) and medium (1) cut. Files of the same shape and same cut may be purchased in boxes of ten.

Set of five files in a vinyl pouch. Overall length of files is 8½”.

Set of 5 Files

Diamond Needle Files

FOR FILING HARDENED STEELS, CARBIDES AND CERAMICS

D-M-E Diamond Needle Files are specially made for moldmakers. They feature efficient cutting action with only the slightest pressure and provide long tool life. The Diamond Needle Files are 5½” long with approximately 2¾” diamond surface. The round shanks are knurled to prevent slippage.

A complete set, stored in a sturdy vinyl pouch, includes one each of these five popular file shapes: rectangular, half-round, triangular, square and round. Diamond Needle Files may also be purchased individually.
